

SCOPE OF WORK

Working to a Sherwin Williams paint specification supplied by our client, VariBlast were contracted to clean and repaint two 24.5m dia. and seven 12.5m dia. vertical petrochemical storage tanks at their Harwich depot.

The works included hot washing all measured areas to remove salts and surface grime, St 3 level hand preparation to all areas of sound existing coating and spot Sa 2.5 dry blasting cleaning where existing coatings had failed and oxidation (rusting) had occurred.

All works were carried out by hand at an average working height of 15m above ground level, via a 24m (80ft) MEWP access.
